

Packaging Requirements

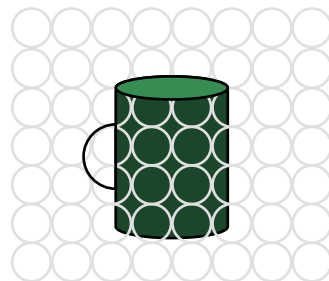

All parcels will be treated with equal care regardless of labels pasted. Any parcels sent through our services must be able to withstand a short drop — fragile items should not be sent through our services.

Items must be packed tightly and snugly. Exposed areas of the item must be wrapped and covered fully.

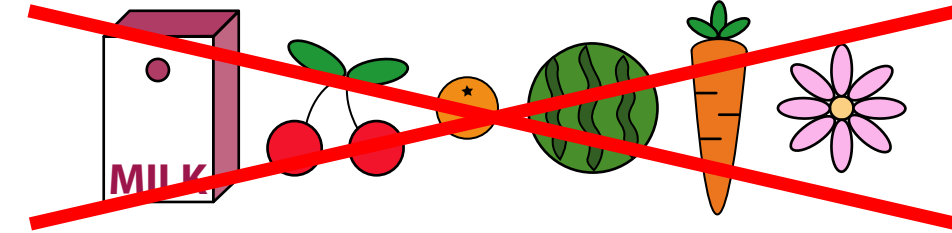

*at least 3 cm of bubble wrapping around the item

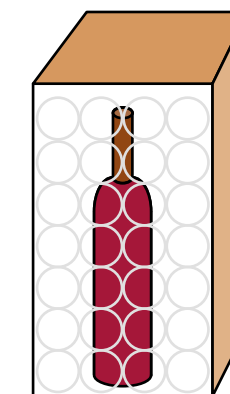

Bubble-wrapping is a must when packing fragile items. Do take note that items with improper packaging will be shipped at your own risk, and will not be insured.

We do not encourage using plastic/paper bags for your item's packaging. If you would like to do so, please seal up the opening tightly. During transit, item(s) missing or damaged will not be covered.

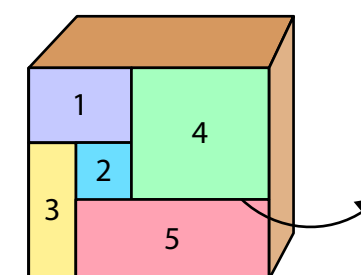

We do not deliver perishables such as groceries and flowers.

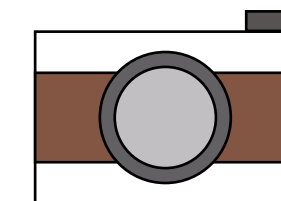

*at least 3 cm of bubble wrapping around the item

For parcels containing liquids, place it in an upright position so as to minimise movement. Ensure that the item is sealed properly and that there are no empty spaces for it to move about.

When stacking items in a parcel, please fill up the empty spaces in between with bubble-wrap, packing foam or styrofoam peanuts.

For claims, the recipient must reject the parcel upon collection and notify Park N Parcel within 24 hours. If the recipient accepts and leaves the store premises, the parcel is deemed successfully delivered without damage, and any claims will be refused. The maximum coverage is \$50 or invoice amount whichever is lower.
